***Detailed Action***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicants' submission filed on 09/22/10 has been entered.

In said RCE, applicants' have amended claims 1, 2 and 5 and added new claims 16-19. Thus claims 1-7, 9, 11, 14 and 16-19 are pending in this application and are being considered for examination.

The Terminal Disclaimer filed on 10/26/10 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of co-pending application Massignani et al., (US Application No.: 10/472,681), has been reviewed and are accepted. The Terminal Disclaimer has been recorded.

Previous rejection of claims 1-7, 9 and 11, provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 27, 28, 36, 38, 45 and 46 of Massignani et al., (US Application No.: 10/472,681), is being withdrawn due to submission of a Terminal Disclaimer.

Previous rejection of 1-3, 5-7, 9 and 11, rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement and written description, is being withdrawn due to claim amendments and persuasive arguments.

Rejections and/or objections not reiterated from previous office action are hereby

withdrawn.

Claims 1-7, 9, 11 and 16-19 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 14, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement dated 12/29/06, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 12/29/06, is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 09/22/10 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered and initialed the IDS statement.

***Examiner Amendment***

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Otis B. Littlefield on 10/25/10.

The application has been amended as follows:

***In the Claims***

**Claim 14:** Line 2, delete "claims" and replace with "any one of claims"

***Allowable Subject Matter***

Claims 1-7, 9, 11, 14 and 16-19 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests an isolated polypeptide having at least 90% sequence identity to SEQ ID NO: 1, wherein the polypeptide has a substitution at one or more of amino acids corresponding to Glu-109, Glu-111 or Glu-120 of SEQ ID NO: 1.

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

***Final Comments***

To insure that each document is properly filed in the electronic file wrapper, it is requested that each of amendments to the specification, amendments to the claims, Applicants' remarks, requests for extension of time, and any other distinct papers be submitted on separate pages.

It is also requested that Applicants identify support, within the original application, for any amendments to the claims and specification.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ganapathirama Raghu whose telephone number is 571-272-4533.
